

AWS Security Assessment - Deliverables

Actionable outputs for engineering and business stakeholders.

Security findings register

Evidence-backed findings with severity, affected area, rationale and recommended remediation.

Remediation roadmap

Actions ordered by risk, dependencies and implementation effort to create a practical backlog.

Executive security summary

Concise view of scope, material risks, observed control gaps, limitations and next steps. The assessment does not certify the environment or guarantee absence of vulnerabilities.

Document purpose: pre-engagement product transparency. This document does not represent an independent certification, legal opinion, penetration test, or guarantee of security/compliance outcomes.
